Board of Education:

Thank you so much for your continued commitment to the youth of this county. I would like to take a moment to recognize the month of September as the National Suicide Prevention Month.

Suicide prevention in schools is absolutely crucial. As you know, our educational institutions play a pivotal role in youth development, and it's essential that we create a safe and supportive environment for students facing emotional struggles. Let's continue to prioritize mental health awareness and support within our schools, ensuring that no student feels alone in their battle against despair. We desperately need to make sure that all the students in our schools feel safe and supported, but this can only happen when we know our students. Let's seek to build each other up!
