Accessibility to Facilities

It is the policy of the Board that its facilities shall be accessible to persons with disabilities so that they are not denied the benefits of, excluded from participation in, or otherwise subjected to discrimination under programs or activities that the Office operates.

The Office will operate its programs and activities so that when each part is reviewed in its entirety, it is readily accessible to disabled persons. This does not require that each of its existing facilities or every part of a facility be accessible to and usable by disabled persons.
