TOWN OF PORTOLA VALLEY CHILD CARE SUMMARY

Brion Economics, Inc. prepared this summary report for the San Mateo County Office of Education (SMCOE), in partnership with the San Mateo County Child Care Partnership Council, First 5 San Mateo County, and the Silicon Valley Community Foundation. This summary report is based on a countywide study of child care needs for children 0 to 12 years old and is one part of a larger, countywide study that identifies current and future child care needs by city, also known as supply and demand analysis.

DEMOGRAPHICS¹

Portola Valley	2022	2032	Net Change	% Change
Total Population	6,744	6,826	82	1.2%
Total Employees	1,520	1,520	-	0.0%
Children Under 2 Years Old	68	60	(8)	-11.5%
Children 2 to 4 Years Old	88	78	(10)	-11.5%
Children 5 to 12 Years Old	412	371	(41)	-9.9%
Total Children 0 to 12 Years Old	568	509	(59)	-10.3%
Children 0 to 12 as % of Total Population	8.4%	7.5%		-1.0%

Note: 40% of 4-year-olds are shifted to School Age, or 5- to 12-year-olds at 2032 for Transitional Kindergarten.

CHILD CARE SUPPLY AND DEMAND AS OF 2022

- **Child Care Providers:** Four total providers: 0 Family Child Care Homes (FCCH Spaces) and four Child Care Centers (Center Spaces) with a total of 272 spaces.
- **2022 and 2032 Estimated Supply of Child Care Spaces²**

2022 Supply in Portola Valley				
Age Group	FCCH Spaces	Center Spaces	Total Spaces	% of Supply
Infants	-	-	-	0%
Preschool	-	143	143	53%
School Age	-	129	129	47%
Total Supply	-	272	272	100%
% of Supply	0%	100%	100%	

2032 Supply in Portola Valley					Change 2022 to 2032	
Age Group	FCCH Spaces	Center Spaces	Total Spaces	% of Supply	Net Change	% Change in Supply
Infants	-	-	-	0%	-	0%
Preschool	-	183	183	59%	40	28%
School Age	-	129	129	41%	-	0%
Total Supply	-	312	312	100%	40	15%
% of Supply	0%	100%	100%			

¹ Population and employment data is from ABAG's *Projections 2040*, ELNAT, and ABAG's *Projections 2013*. Please note that totals in charts may be slightly off due to rounding.

² Infants include birth up to 2 years, Preschool includes 2 to 4-year-olds, and School Age includes 5 to 12-year-olds.

- **Planned Spaces:** In Portola Valley, there is one new planned child care project, with 40 Preschool spaces.
- **2022 Estimated Demand for Licensed Child Care Spaces:** Total need equals 299 spaces, including 272 spaces for residents and 27 spaces for non-resident employees working in Portola Valley and commuting in from outside the County.

2022 Demand in Portola Valley				
Age Group	Resident Demand	Employee Demand	Total Spaces Needed	% of Demand
Infants	25	11	36	12%
Preschool	54	16	70	23%
School Age	193	-	193	64%
Total Demand	272	27	299	100%
% of Demand	91%	9%	100%	

- **2032 Estimated Demand for Licensed Spaces and Net Change**

2032 Demand in Portola Valley					Change 2022 to 2032	
Age Group	Resident Demand	Employee Demand	Total Spaces Needed	% of Demand	Net Change	% Change in Demand
Infants	21	11	32	11%	(4)	-12%
Preschool	47	16	63	21%	(7)	-10%
School Age	205	-	205	68%	12	6%
Total Demand	274	27	301	100%	1	0%
% of Demand	91%	9%	100%			

- **Estimated Shortage or Surplus of Child Care Spaces in 2022 and 2032**

Estimated Surplus or Shortage of Spaces by Year - Portola Valley				
Age Group	Surplus (Shortage) - 2022	% of Demand Met - 2022	Surplus (Shortage) - 2032	% of Demand Met - 2032
Infants	(36)	0%	(32)	0%
Preschool	73	204%	120	289%
School Age	(64)	67%	(76)	63%
Total Surplus/(Shortage)	(27)	91%	11	104%

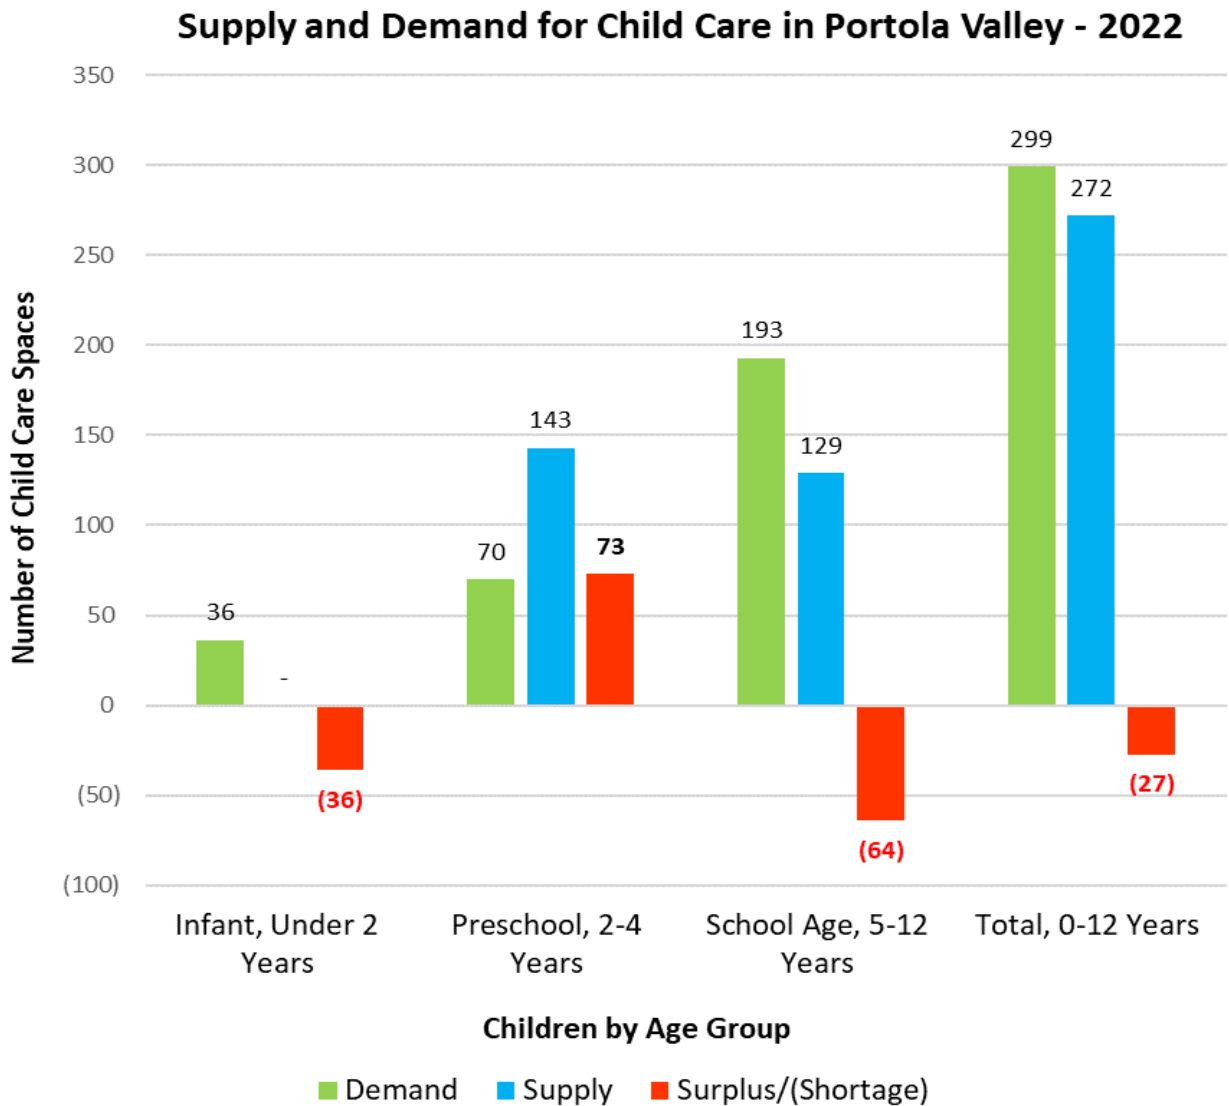

- **Subsidized Need and Spaces:**³ According to data from SMCOE and the California Department of Education, Portola Valley has 0 Infant and 0 Preschool subsidized spaces. According to 2020 data for children 0 to 4 years old from ELNAT,⁴ Portola Valley has 174 children ages 0 to 4 that qualify for subsidized care. This translates into 0% of the current need being met. There is an unmet need for 174 subsidized spaces for children 0 to 4 years old.

³ Includes State Preschool, General Child Care, ASES, Early Head Start, and Head Start, CalWORKs – Stage 2 and 3, and Alternative Payment programs. Age groups for subsidized care are Infants, birth to 2 years old, and Preschool, 3 and 4 years old.

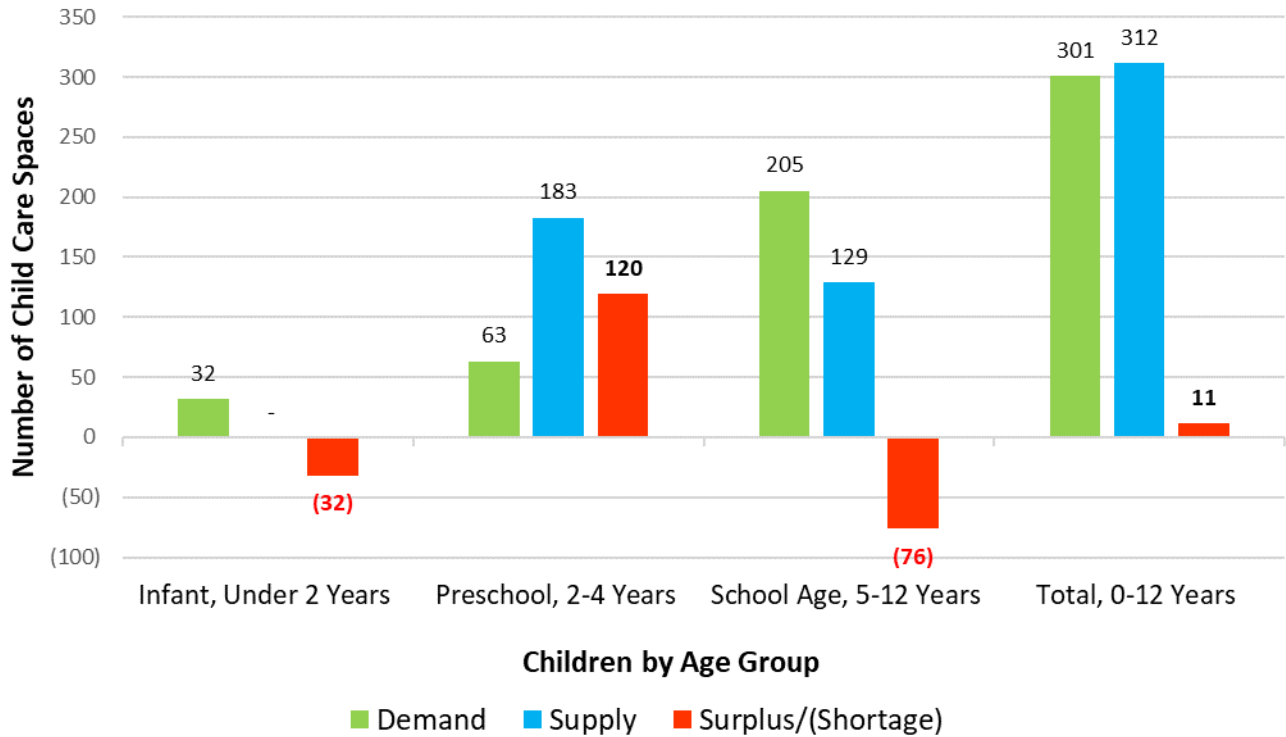

⁴ Early Learning Needs Assessment Tool created by American Institutes for Research (AIR).

Portola Valley - 2020 - Subsidized Care and Need			
Item	Infants 0-2 Years	Preschool 3-4 Years	Total 0-4 Years
Estimated Children	291	181	472
Eligible (Need) for Subsidized Spaces	102	72	174
Percent of Total Children	35%	40%	37%
No. of Subsidized Spaces	-	-	-
Unmet Need	(102)	(72)	(174)
Percent of Need Met	0%	0%	0%

▪ Supply and Demand Summary by Year

Supply and Demand for Child Care in Portola Valley - 2032

METHODOLOGY OVERVIEW

- **Resident Population:** Total population and children estimates are based on ABAG's *Projections 2040* for 2022 and 2032. Population data from the Early Learning Needs Assessment Tool (ELNAT) is incorporated to estimate children by age for each City/Area and countywide.
- **Child Care Demand by Age Group:** The following factors are applied to estimates of total children by age group and year. These data are from the *2022 Parent Survey* (see Chapter 3 of the full Needs Assessment) prepared for this study.

Age Group	2022 Demand	2032 Demand	Difference
Infants - Under 2 Years	37.2%	35.0%	-2.2%
Preschool, 2-4 Years	61.2%	68.8%	7.7%
School Age, 5 or older	46.9%	54.0%	7.2%

- **Transitional Kindergarten (TK):** For 2032 estimates, 40% of 4-year-olds are assumed to utilize TK, increasing the need for School Age child care spaces, and decreasing the need for Preschool spaces. These 4-year-olds are included in the School Age category of children 5 to 12 years old for 2032.
- **Employee Demand:** Using the 2019 5-Year American Community Survey Journey-to-Work data, the number of employees that work in each City/Area and reside outside of San Mateo County is calculated. It is assumed that 3.0% of these non-resident employees commuting from outside the County require child care in the City/Area where they work. This total demand is split 40% for Infant spaces and 60% for Preschool spaces.⁵
- **Subsidies:** Subsidized space data and analysis is from a combination of sources including SMCOE 2022 survey results of direct state contracts, CalWORKs Stage 2 and 3, and Alternative Payment (AP) data from the California Department of Education, and CD-801A Monthly Report for October 2020,⁶ by family residence location. Note that the Early Learning Needs Assessment Tool (ELNAT) does not provide 2020 subsidized data for School age children. ELNAT data is by zip code and has to be combined and/or divided into the study's defined Cities/Areas.

STUDY ACKNOWLEDGMENTS AND FUNDING

BEI would like to acknowledge the following individuals and organizations for their support in this effort:

- Sarah Kinahan, Project Manager, San Mateo County Child Care Partnership Council;
- Child Care Coordinating Council of San Mateo County (also known as 4Cs);
- San Mateo County Office of Education; and,
- Child Care Needs Assessment Ad Hoc Committee Members

Funding for this study was provided by:

⁵ It is assumed that School Age children of non-resident employees require child care near their school.

⁶ This is the most current data available.
