

Library Links for Education: A Digital Partnership

San Mateo County Office of Education

Peninsula Library System

Library Links Database Access Card

New, and easy access to public library databases for all San Mateo County teachers and students!

By applying for a Library Links for Education public library "Database Access Card," you and your students will be able to quickly and easily connect to the public library's select databases through a San Mateo County Office of Education link.

Library Links for Education allows access to public library electronic resources that:

- connect to the most popular public library resources for students.
- are easily available from school libraries and classrooms.
- allow students to focus research on authoritative resources.
- build student familiarity with public library databases for further research from home.

Watch for the accompanying public library card campaign at your child's school. With a public library card, students are able to check-out and reserve a wide range of free materials from the 30 public libraries and 3 community college libraries in San Mateo County, 24 hours a day, from school, home or the library. A public library card also allows access to library computers for word processing and electronic research.

Apply for a Public Library Database Access Card today!

Application on the back.
